

Every day in the UK,
another **240 people**
wake up to the
catastrophic impact
of a **stroke**.

There are over
1.4 million
stroke survivors
in the UK.

By 2035,
this number
will exceed
3 million.

Almost **two thirds**
of stroke survivors
leave hospital with
a **disability**.

Based in **local communities**,
our Stroke Support
Coordinators provide
one-to-one support to
meet people's needs.

The **Stroke Support Helpline**
is the only national phoneline
for everyone affected by stroke.
Each year **over 15,000 people**
receive support.

The Stroke Association is
the only charity in the UK
providing lifelong support
for your patients and their
families and friends.
**Remember – we're also
here for you.**

Tailored support is
available by **phone**,
at **home** and in the
community – for
however long survivors
and their families need.

We act as an **integral link**
in the **patient care pathway**,
working alongside healthcare
professionals and
complementing medical,
therapeutic, and other services.

Together, we
can make sure
no one faces
recovery alone.

We're here for you and your patients.
