

Stroke Association Connect

Supporting stroke recovery

Stroke survivors and their families do not have to face recovery alone. When your patients are discharged from hospital, we'll get in touch to see how they're getting on. Our Stroke Support Team provide:

- Vital support from the start of their stroke recovery journey.
- Essential reassurance and help to answer any immediate questions or concerns.
- Connection to ongoing support – which can be accessed at any time in the weeks, months or even years after their stroke.

Your patients can only benefit from this service if you refer them at the point of discharge. Please email referrals to **StrokeAssociationConnect@stroke.org.uk**
